COMPANY PROFILE 2026

HELLO THERE!

AL HIBA ITS is a leading global systems integrator, delivering comprehensive IT solutions that combine advanced technology and real-world innovation. Known for its strong technical expertise and forward-thinking approach, the company recently earned the **TOP SYSTEM INTEGRATOR 2023 CPCA Award**, celebrating its progress in IT system integration.

This award highlights the dedication of its skilled team and the trust placed in the company by its clients and partners. As AL HIBA ITS continues to grow, it remains focused on exploring new ideas, expanding its capabilities, and building smarter digital solutions that help businesses move confidently into the future.

About Us.

Introduction

Since its founding in 2009 under the name CompBiz IT Solutions, which was later rebranded as AL HIBA IT Services, AL HIBA ITS has successfully established a competitive benchmark in delivering a comprehensive array of IT solutions on a large scale within real-time environments for clients throughout the Middle East.

Accordingly, AL HIBA ITS is proud to announce that it has been honored with the **TOP SYSTEM INTEGRATOR 2023 CPCA Award**, a recognition of the company's outstanding achievements in IT system integration, a testament to the extensive expertise AL HIBA ITS possesses in offering high-value, business-centric solutions and services encompassing enterprise infrastructure setups, telecommunications, security solutions, turnkey projects, and more.

Our robust and exclusive development and enhancement model guarantees high-quality delivery within specified timeframes, all while reducing costs and increasing customer satisfaction. This commitment to excellence positions us as one of the most sought-after IT solutions providers in the Middle East.

Industries We Serve

- Cyber Security
- Next-Generation Firewalls
- UTM and Gateway Solutions
- AV & Malware Protection
- CCTV Surveillance
- Biometric RFID Door Access Controls Systems
- Smart Time Attendance systems
- Gate Barrier Solutions

Organization Structure

IT Infrastructure

We know that the infrastructure is the backbone of every organization, and it should operate under concentrated pressure. That's why we concentrate on designing a precisely targeting enhanced user experience.

AL HIBA ITS provides a complete range of services in strategic design, technology, implementation, and management of enterprise infrastructure applications that helps to accelerate the business.

We offer our expertise in

- Structure Cabling
- Wireless Networking
- Switching, Routing (VLAN) & Remote Connectivity (VPN)
- Firewall, UTM and Gateway Solutions
- Data Center Design and Implementation
- Server Consolidation, Migration & Virtualization
- Storage (NAS / SAN)
- Disaster Recovery Plans
- SharePoint
- LAN / WAN Solutions
- Tape Library Management
- Blackberry Enterprise Solutions

IT Security & Biometric Solutions

AL HIBA ITS provides comprehensive and dependable security solutions for modern workplaces, commercial buildings and residential areas. We handle everything from the supply of trusted products to their complete installation and long-term maintenance. Our services include automatic gate barriers, access controls, CCTV cameras, intercom systems and a variety of additional tools that help strengthen protection, improve monitoring and support daily operations.

Our solutions include

- Video Door Phones
- Biometric Systems
- Access Control Systems
- Time Attendance Recorder
- RFID Access Control Systems
- Security Systems
- CCTV Surveillance
- Guard Tour Systems
- Security Alarm

Hospitality & Telecom Solutions

AL HIBA ITS offers a wide range of competitive and comprehensive telecom solutions that help your business communicate with greater ease and speed. Through advanced technology and well-designed communication systems, we support smoother operations, stronger connections, and a more efficient work environment for every team.

We establish and maintain

- IP Telephony and VoIP solutions
- Analog and Hybrid PABX solutions
- GSM / GPS integration
- IP TV Smart WIFI
- Video door phone
- Video Conferencing
- Meeting Room Solutions
- NFC & Guest Access Solutions

Integrated Engineering Solutions

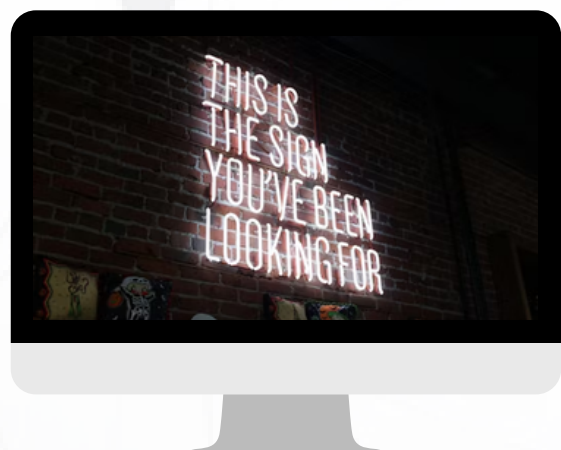

AL HIBA ITS delivers integrated Engineering Solutions combining LV electrical systems, data center and IT infrastructure, and IT-driven automation. Our capabilities include LV switchgear panel design and engineering, data center and network implementation, smart metering and SCADA platforms, and software-based automation, supported by professional CAD drawings and system integration expertise.

These solutions are delivered through AL HIBA ITS's experienced in-house teams and a network of trusted associated partners, ensuring safe, scalable, and standards-compliant execution.

Software Solutions

AL HIBA ITS software solutions set their own standard in this digital era. Our dedicated team provides a complete spectrum of software solutions where your expectations are converted to products and profits.

- Application Development and Support
- Cloud Storage and Backup
- Software Customization
- Business Reporting
- ERP Solutions
- CRM
- Custom Software development
- Web and Mobile Applications

Support & Services
